INVITATION!

NSDS invites you to NSDS2023, August 23-26. The conference venue is situated in Linköping City center.

We are looking forward to an interesting programme including biomechanics, bracing, the role of radiology and much more.

Conference venue: Konsert & Kongress, Linköping
<https://konsertkongress.se/en/start>

During the evenings we will have:

- Grill buffet at conference venue
- Boat trip on Göta Kanal and lake Roxen
- Conference dinner at conference venue

Boat trip on Göta Kanal:

Göta Canal's greatest attraction is Berg Locks. During the summer thousands of boats pass along the Göta Canal and it really is a spectacle to see how the water mass streams through the locks. The fantastic Carl Johan staircase, with its 7 connected locks raises or lowers the boats a full 18.8 meters between Lake Roxen and Berg Guest Harbour and is also the longest lock staircase in the Göta Canal. In Berg there are two more double locks, the Oscar lock and the Berg Lock.

Registration is open!

Welcome to Linköping & Sweden!
